B-11000 Model 4 Installation Instructions

1. Brake Rack B-11000 is to be installed in accordance with the mounting template enclosed taking **particular note** that *there is a top and bottom to the mounting template.*
2. The B-11000 is **ONLY** to be mounted to **permanently** installed ladder racks that can **SAFELY** take the weight of the brake and **when installed**, does not exceed the maximum width of the vehicle
3. The B-11000 is provided with a 1/2 x 2 3/4 **STOP BOLT** mounted for "vertical" post ladder racks to position the brake **horizontally** in the lowered position.
4. **IF** your ladder rack is **angled** off of vertical, reposition the **STOP BOLT** into one of the 10 degree holes that is most appropriate to adjust the arm to horizontal with brake rack in lowered position. Use the 3/4 Outside Diameter by 1 1/2 long **spacer** to make fine tune adjustments in addition to the ten degree holes supplied on the B-11000 body.
