Our most popular model

Simple 3-step assembly
- 200 lb. capacity material hoist
- Portable
- Lightweight construction
- Easy to set up
- No special tools required for assembly
- Sections bolt together
- One-person operation
- 27 ft. length standard, maximum 43 ft.
- 8 ft. extensions (4 ft. extensions available separately)
- Briggs & Stratton gas engine (Honda and electric optional)
- 100% ball bearing winch
- Adjustable motor base
- Solid steel carriage wheels
- Mechanism for locking carriage in place in transit
- Self-storing plywood carrier included
- Additional attachments available
- Easy to maintain or repair on-site
- Self-energizing nylon brake

Rugged construction
- 200 lb. capacity material hoist
- Portable
- Rugged all-steel construction
- Heavy-duty track sections
- Easy to set up
- No special tools required for assembly
- Sections bolt together
- One-person operation
- 26.5 ft. length standard, maximum 43 ft.
- 4 ft. and 8 ft. extensions
- Briggs & Stratton gas engine (Honda optional)
- 100% ball bearing winch
- Externally mounted bearings can be greased
- Adjustable motor base
- Solid steel carriage wheels with ball bearings
- Brake release operational from both sides
- Self-storing plywood carrier included
- Additional attachments available
- Easy to maintain or repair on-site
- Self-energizing semi-metallic brake

Newly designed peak for strength
- 300 lb. capacity material hoist
- Portable
- Rugged all-steel construction
- Heavy-duty track sections
- Easy to set up
- No special tools required for assembly
- Sections bolt together
- One-person operation
- 26.5 ft. length standard, maximum 43 ft.
- 4 ft. and 8 ft. extensions
- 4.0 HP Briggs & Stratton gas engine (Honda optional)
- 100% ball bearing winch
- Externally mounted bearings can be greased
- Adjustable motor base
- Solid steel carriage wheels with ball bearings
- Brake release operational from both sides
- Self-storing plywood carrier included
- Additional attachments available
- Easy to maintain or repair on-site
- Current with industry developments and needs
- Self-energizing semi-metallic brake

On wheels for easy transporting
- 400 lb. capacity material hoist
- Extremely portable thanks to steel base on wheels
- Lightweight aluminum track sections
- Easy to set up
- No special tools required for assembly
- Sections bolt together
- Made with fewer parts for easy assembly
- One-person operation
- Single-handle design simplifies operation
- 28 ft. length standard, maximum 44 ft.
- 4 ft. and 8 ft. extensions
- 4.0 HP Briggs & Stratton gas engine (Honda optional)
- 100% ball bearing winch
- Self-lubricating platform wheels
- Plywood carrier included
- Additional attachments available
- Easy to maintain or repair on-site
- Current with industry developments and needs
- Self-energizing semi-metallic brake
