

Every roofer and contractor needs this tool!

Quick Start

**BRAKE
RACK**

Get ready

With brake up, release the padlock and lock pin

Get set

Swing the brake down

Go!

Lower to work height and start working

Incredibly quick set up and take down are just two of the reasons to get your own Safety Hoist Brake Rack. The Quick Start Brake Rack is also

- Affordable
- Safe and simple enough for one person to handle
- Easy to install—all hardware is included and minimal assembly is required
- Compatible with most popular brake models
- Constructed with heavy-duty materials
- Made in the U.S.A.
- Theft-resistant—the brake rack secures directly to your steel ladder rack with the padlock included
- A stand-alone system that eliminates the need for extra sawhorses

Return to stored position when finished

We'll even show you how to install your new Brake Rack. Visit the Safety Hoist Web site at www.safetyhoistcompany.com to view the installation video.

Stop wasting your time.

Call **877-994-6478** (toll-free) to place your order or to discuss other Brake Rack applications.
